	STA4164*	Statistical Methods III		STA4164*	Statistical Methods III	

Courses with a course number of 1000-2999 do not meet the University's 48 semester hours of upper division credit rule.

\* Indicates course has a prerequisite or requires a particular class standing (sophomore, junior or senior).

In addition to or in lieu of supporting coursework, students may pursue a minor in another discipline. Students should work closely with an advisor to plan curriculum and to substitute courses not identified on this list.

If you are planning on going to graduate school, we strongly recommend supporting course work in STA 2023 (statistical methods I), even though this course will not meet the University 48 credit hour rule. Students interested in Law School are strongly recommended to take PLA 3014.
