Subject: AHSC Committee Communications

Dear VP's, Deans and VAAP Members,

At the most recent meeting of the Academic Health Sciences Center Task Force, the members discussed the need to receive input from across the university. We will be scheduling open fora on different campuses and meetings with concerned and related units. Recognizing that many faculty and staff may not be able to attend such meetings, the task force asked that they, the individual task force members, serve as ambassadors to the university community to receive input and share that input with the entire task force.

Please share this email with your faculty and staff so that they will have the list of individuals with whom to speak. The Task force members are listed below with their email addresses.
